Fast and powerful ironing

- 2800 W iron for fast heat up and powerful performance
- Steam output of up to 50 g/min for better crease removal
- Steam boost up to 200 g

PHILIPS

Features

100% easy to use

100% easy to use, no adjustment required. You can now iron all ironable garments one after the other, without having to wait or to adjust the iron's temperature dial.

100% safe

100% safe on all fabrics even the most delicate like silk, cashmere, wool, polyester. Independent iron testing institutes have used PerfectCare on the most sensitive ironable garments and they confirmed excellent ironing results.

Tested and approved:

This iron is tested and approved by independent textile expert institutes, such as DWI, IWTO and Woolmark, for its excellent ironing performance. The Woolmark Apparel Care programme helps consumers to identify quality laundry products that are approved by The Woolmark Company for use on wool products. Philips, with its exclusive OptimalTEMP technology, is so far the only brand to be certified with the Gold standard from Woolmark. You can be confident that Woolmark-approved apparel care products are ideal for any wool garments.

100% fast

100% fast to iron, no sorting required. Iron all your garments with more effective steam.

2800 W for fast heat-up

2800 W iron for fast heat up and powerful performance on all your ironable garments.

Steam up to 50 g/min

Continuous steam output of up to 50 g/min gives you the perfect amount of steam to efficiently remove all creases.

Steam boost up to 200 g

The steam boost can be used for vertical steaming and tough creases.

Suitable for tap water

PerfectCare Azur steam iron is designed to be used with tap water. Double Active Calc Clean: A smart combination of Calc Pills and a regular Self Clean reduce the scale built-up. For better ironing results we recommend to use demineralised water. This ensures a consistent steam flow from your iron.

T-ionicGlide soleplate

T-ionicGlide is Philips' premium soleplate. Delivering a new standard in glide and scratch-resistance for OptimalTemp irons. The patented new coating will secure excellent results. The carefully designed shape and vent holes provide even steam distribution for easy crease removal with the steam iron.

Safety auto off

The iron shuts off automatically when left unattended. If left on it's heelrest the steam iron will switch off in 3 minutes, when left resting on the soleplate it will take 2 minutes before the iron shuts off.

OptimalTemp technology

The latest revolution in ironing to deliver the perfect combination of steam and temperature. It's made to ensure you get speedy ironing and great results

on tough creases, with no setting required, and is safe on all ironable fabrics. The perfect combination of steam and temperature because: 1) the Smart Control Processor sets the right temperature 2) the HeatFlow technology enables an even steam and temperature balance.

Smart light feedback

Smart light feedback indicates the status of the iron at any time.
