Coffee maker

• Grind and Brew System

HD7762/00

Change and mix beans to your taste!

The only Grind & Brew with two bean containers

This very compact Grind & Brew coffee maker comes with a modern design and a unique brewing control knob to easily set your preferences for great tasting coffee.

Great taste and aroma

- Fresh bean container with two compartments
- Bean selector to select one type of beans or a mix of both
- Integrated grinder for freshly ground coffee
- Grind selector knob for your favorite ground size
- Strength select for adjusting the intensity of your coffee

Designed Around You

- Wake-up from the smell of coffee thanks to the timer
- Advanced water level indicator
- Grind-off function for using regular ground coffee

Modern design (G&B)

- Intuitive user interface with brewing knob and LCD display

Easy to experience

- On/off switch with auto-shut off to save energy (120min)
- Drip stop to interrupt coffee brewing whenever you like

PHILIPS

Highlights

Bean selector

With the bean selector you can choose between two types of coffee beans, or create your own blend, by mixing them together.

Grind selector

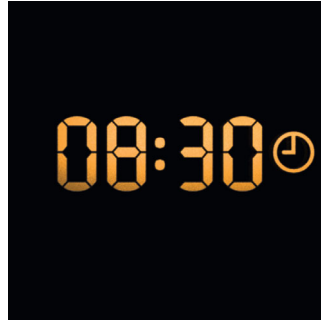

The grind selector knob allows you to choose between 9 grind options to tailor your freshly ground coffee to your personal taste. Grind finer for a stronger coffee taste or coarser for a lighter, smooth coffee.

Strength select

The strength select of the Philips Grind & Brew coffeemaker lets you adjust the intensity of your coffee. Select from mild, medium or strong filter coffee.

Pre-settable timer

The Philips coffeemaker has an integrated timer. Simply prepare your coffee machine, set the time and wake-up to the smell of freshly brewed coffee.

Advanced water level indicator

Philips has developed this advanced water level indicator with light guides allowing you to follow easily how many cups you filled in the water tank.

Intuitive user interface

The user interface of the coffee machine is equipped with an LCD display and a unique brewing control knob, allowing you to intuitively select your coffee preferences (number of cups, strength, timer, grind-off).

Specifications
